

# Get the performance. Lose the weight.

The only complete line of lightweight products for every step of your project.

Contributes to "Leadership in Energy and Environmental Design" certification.

A 2.7kg board that cuts with a utility knife and installs like traditional backerboard

33% lighter than traditional self levelers, and cures rapidly with a smooth finish

4x faster to install and 97% lighter than traditional floor backerboard

Only 13.6kg but has ultimate bond strength and flexibility

30% quicker drying time and BRANZ appraised for internal and external use

Just 1 part that outperforms traditional 2-part rapid setting systems

32% lighter than traditional grouts with no shading or efflorescence

Grout in 3 hrs with this fast-curing medium bed mortar

40% lighter but same coverage as a 22.6kg bag, and has non-slip, non-slump performance

33% less shrinkage than traditional adhesives, has superior bond strength
