

# POULTICE STAIN REMOVER

**DESCRIPTION:**

AQUA MIX POULTICE STAIN REMOVER is a dual purpose, non-acidic stain remover. It is an absorptive clay that is designed to remove deep-set oil and grease stains without scrubbing. It is also a fine abrasive cleaning powder that removes stubborn surface stains and light grout haze.

**USES:**

All natural stone (such as granite, limestone, marble, slate, and travertine), porcelain, quarry, saltillo, terra cotta, cement pavers, masonry surfaces, and other porous tile and grout.

**TEST A SMALL AREA:**

According to application instructions to determine desired results.

**APPLICATION:**

**FOR REMOVING DEEP-SET OIL AND GREASE STAINS:**

- 1) Read entire label before using.
- 2) Mix Poultrice Stain Remover powder with water to form a thick, pliable paste – quantity of Poultrice Stain Remover needed will depend on size of stain.
- 3) Apply a 1/4-inch (6 mm) thick layer of paste directly over stain with at least a 1-inch (25 mm) overlap beyond edge of stain.
- 4) Cover with plastic or wax paper. Poke a few very small holes in plastic cover to allow for minimum air exposure.
- 5) Allow paste to stand on stain for 24 to 48 hours.
- 6) Remove Poultrice Stain Remover with plastic spatula or plastic putty knife and wash off residue with clean water.
- 7) Repeat procedure if necessary. If area darkens from absorbed moisture, it should dry completely within 2 to 4 days.

**FOR REMOVING STUBBORN SURFACE STAINS AND GROUT RESIDUE ON ACID SENSITIVE STONE:**

- 1) Read entire label before using.
- 2) Protect surrounding areas from splattering to minimize cleanup.
- 3) Pre-wet a manageable area of the surface with water (approximately 10 sq. ft. (1 m<sup>2</sup>)) and sprinkle Poultrice Stain Remover onto the area mixing into a thin slurry. If surface is vertical, mix slurry in a container and apply to pre-wet surface.
- 4) Agitate by hand or with low RPM (300-750 RPM) buffer using a white nylon scrub pad. Keep surface wet throughout buffing process.
- 5) Remove Poultrice Stain Remover solution with clean towels or sponge and rinse twice with clean water. A wet-dry vacuum may be used.
- 6) Polish surface dry with clean, dry towels or buff with soft lambs wool pad.
- 7) Rinse with clean water and buff dry with clean towels

NOTE: Poultrice Stain Remover is an excellent additive that will boost the cleaning power of many of the Aqua Mix cleaners such as Phosphoric Acid Cleaner, Heavy Duty Tile & Grout Cleaner, and Stone Deep Clean.

**LIMITATIONS:**

- Do not allow product to come in contact with any non-recommended surface.
- Extreme care should be taken with dark marble (especially green), as it may be more sensitive to moisture.
- Light abrasive action or high RPMs on the surface of some marbles may dull the high polished finish.

**HANDLING AND STORAGE:**

- Close container tightly after each use.
- Store in original container only.
- Store and use in temperatures between 40 °F and 90 °F (4 °C and 32 °C).
- Unused, stored product is freeze-thaw stable.

**CAUTION:**

- KEEP OUT OF REACH OF CHILDREN.
- Contains calcined clay.
- Avoid breathing dusts.
- Rubber gloves and eye protection should be worn during application.
- IF INGESTED: Drink 1 to 2 glasses of water.
- EYE CONTACT: Flush thoroughly with water. If symptoms persist, seek medical attention.

**WARRANTY:**

SATISFACTION GUARANTEED. If not completely satisfied with this product's performance, when used as directed, contact Aqua Mix for exclusive remedy of either refund of purchase price or replacement of product upon return of unused portion with proof of purchase within one year of purchase. Determining suitability of product for any intended purpose shall be solely the responsibility of the user. THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THOSE OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, WHICH EXTEND BEYOND THE DESCRIPTION ON THIS LABEL. IN NO EVENT SHALL AQUA MIX BE LIABLE TO THE CUSTOMER OR ANYONE ELSE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, HOWEVER OCCASIONED. ALWAYS TEST FIRST.

**COVERAGE:**

Approximately 35 to 100 sq. ft. (3 m<sup>2</sup> to 9 m<sup>2</sup>) per pound (.45 kg) depending on dilution.
